

National Taiwan Normal University Innovation & Incubation Center
Letter of guarantee for supplementary profit-seeking enterprise registration

Amendments discussed and passed during the 1st Advisory Committee meeting on November 5, 2009

- I. I intend to reside in the National Taiwan Normal University Innovation & Incubation Center (hereinafter referred to as the “Center”), but my team was only recently formed and has not completed profit-seeking enterprise registration before submitting the application. Therefore, I am applying to become a resident of the Center under my own name. I hereby guarantee that I will complete registration within six months after passing the review and provide the profit-seeking enterprise registration.
- II. I hereby declare that the Center may terminate the contract if I fail to provide the profit-seeking enterprise registration within the period specified above, and I and my team will waive the right to the security deposit or contract related fees already paid without any objection.
